**M3 MAUI**  
Mobile Access Unit – Industrial Model

## MAUI

Mobile Access Unit Industrial, for tank trucks, isotainers and railcars.

Do you need fall protection on top of trucks, isotainers or railcars, but the vehicle may be parked in varying locations?

Just roll the MAUI up to the vehicle and climb to the top in safety!

Only the SafeRack MAUI has this unmatched versatility.

- Support 227kg without resting on a vehicle, critical safety factor if the MAUI is used other than on a vehicle.
- Reconfigure on site to roll Parallel or Perpendicular to the vehicle if future use changes, no buying a new unit.
- Provides stability so operators will actually use the MAUI instead of complaining or not using it.
- Adjusts to fit vehicles of varying heights
- A choice of cages provide fall protection for trucks, isotainers or railcars.
- Never flat 406 mm tires, no flat spots.
- Winch with cover to Raise/Lower the ladder and cage assembly.
- Working range of MAUI 1014 is 3048mm to 4267mm.
- Optional adapter converts to 3658mm to 4877mm.
- Aluminum with galvanized base.
